SUMMARY

Informatics student specializing in health informatics and human-centered information management. Experience in building scalable platforms, leading Agile teams, and applying AI-assisted workflows to improve research and organizational decision-making. Seeking to deepen expertise in program/product management and enterprise systems through the MSIM Accelerated program.

EDUCATION

University of Washington

Seattle, WA

Bachelor of Science in INFORMATICS: Biomedical and Health Informatics, Minor in Global Health June 2026 c.

- Cumulative GPA: 3.84/4.00

EXPERIENCE

Project Assistant - HazingInfo.org

Oct. 2023- **Present**

University of Washington Information School

Seattle, WA

- Define data standards and information architecture for a national hazing incident database.
- Design and deploy a scalable database with 5,000+ structured records across all 50 states.
- Implement AI-assisted data collection and cleaning pipelines, improving efficiency and long-term maintainability.
- Coordinate legal, academic, and technical stakeholders to align requirements and milestones.
- Apply SDLC and Agile principles to guide iterative development.
- Platform used by researchers, journalists, and advocacy groups to increase transparency.

Lead Teaching Assistant - Cooperative Software Development

Sept. 2025- Dec. 2025

University of Washington Information School

Seattle, WA

- Led Agile execution for a 40+ student software development course, coordinating teaching assistants and weekly sprint planning.
- Facilitated standups, sprint reviews, and retrospectives across 10+ student teams.
- Coached teams on scope definition, prioritization, and delivery, improving team velocity and cross-team alignment.

PROJECTS

Project Contributor – Global Burden of Disease

June 2025- Dec. 2025

Institute for Health Metric and Evaluation - University of Washington

Seattle, WA

- Evaluated AI tools for systematic literature reviews, improving speed and accuracy by 30%.
- Contributed to research information management practices with reproducible documentation and ensuring compliance.

Founder & Project Lead

Feb. 2020- May 2023

One Child One Computer

- Founded and led a nonprofit addressing the digital divide for Turkish high school students.
- Raised \$30,000 and distributed 200+ laptops across 10+ underserved schools.
- Managed logistics, donor relationships, and an international volunteer team.
- Developed data tracking systems to monitor distribution, impact, and stakeholder reporting.

TECHNICAL SKILLS / COMPETENCIES

Information & Product Management: Agile, Scrum, SDLC, Roadmapping, Requirements Gathering, Stakeholder Engagement

Data & Analytics: Python, R, SQL, Data Cleaning, Metrics & Dashboards, Quantitative Analysis

Systems & Platforms: Airtable, Softr, Confluence, Database Modeling, Workflow Automation

UX & Human-Centered Design: User Research, Wireframing, Usability Testing, Accessibility

AI & Automation: AI-Assisted Data Collection, DistillerSR, Automation Pipelines

EXTRACURRICULARS

Snowboarding Instructor & Marketing Officer

Feb. 2023- **Present**

Husky Winter Sports – University of Washington

- Lead instruction and outreach initiatives, increasing club membership by 40% through targeted communication and engagement strategies.
- Coordinate lesson planning, safety protocols, and member onboarding to improve program consistency and participant experience.
